Photo session with all participants

Meeting between MJIIT and Yamaguchi University

MJIIT had the pleasure of hosting a delegation from Yamaguchi University, led by Prof. Kaminishi, Leader of the JUC Education Sub-Committee on 6 March. The meeting was attended by six representatives from MJIIT, headed by the Dean. The session served as a platform for Yamaguchi University to present the JUC's expectations and outline the next steps for future collaboration. MJIIT, in turn, shared updates on current activities and proposed areas for further cooperation, including research attachments in JUC. Both parties agreed on key collaborative steps and expressed a shared commitment to enhancing mutual academic mobility. The discussion concluded with a consensus to strengthen the sharing of information between JUC and MJIIT moving forward.

2 MLIT Japan Visits DPPC UTM to Explore Disaster Prevention Collaboration

Discussion between MJIIT & MLIT

On 12 March, MJIIT through Disaster Preparedness & prevention Centre (DPPC) hosted 12 visitors from Japan, including industry representatives. The visit focused on disaster risk reduction, with discussions on Japan's flood management and Sabo technologies. The delegation explored how these technologies could address Malaysia's disaster challenges and improve preparedness, response, and rehabilitation efforts. Additionally, the discussions highlighted potential collaborations and the application of Japanese innovations in Malaysia's ongoing disaster management initiatives. The visit proved to be an excellent opportunity to deepen Malaysia-Japan ties, fostering joint efforts to enhance disaster resilience and share valuable insights and expertise.

3 MJIIT Strengthens Japan Collaboration at 2nd JCC Meeting

Photo session with all participants

UTM through MJIIT, held its 2nd Joint Coordinating Committee (JCC) Meeting with the Japan International Cooperation Agency (JICA) to strengthen the Malaysia-Japan Linkage (MJL) Office on 27 March. The meeting, chaired by UTM Vice Chancellor Prof. Dr. Mohd Shafry Mohd Rahim, reviewed the MJL project's progress and outlined strategic plans for 2024. Key highlights included updates on academic and industry collaborations, upcoming initiatives like the Malaysia-Japan Industrial & Innovation Expo 2025, and the JACTIM Research Competition. UTM reaffirmed its commitment to positioning MJIIT as a leading Japanese industrial and education hub in ASEAN.
