Water Rocket Challenge

Recruitment Expo

On 15 April, MJIT successfully hosted Japan Day 2025, welcoming over 1,000 attendees for a vibrant celebration of cultural exchange and technological innovation. Organized in collaboration with the Embassy of Japan, JICA, and Japan Foundation Kuala Lumpur (JFKL), the event highlighted the Malaysia-Japan partnership effort. The day featured an exciting blend of traditional and contemporary Japanese experiences—from captivating performances and martial arts demonstrations to interactive workshops that immersed participants in Japanese culture. The event also included a Research Exhibition and Recruitment Expo, with the recruitment segment co-organized by JACTIM, connecting students with Japanese companies and showcasing MJIT's cutting-edge research. STEM competitions engaged more than 250 students, promoting hands-on learning and creativity. Themed food trucks, cultural booths, and student-led initiatives also added to the festive atmosphere. In conjunction with Japan Day, MJIT also held the Workshop on How to Get Yourself Employed (HTGYE) on 14 April for final-year undergraduate students. The workshop aimed to prepare graduating students for the job market, offering insights into job hunting strategies, resume preparation, and interview readiness. Six participating companies and agencies shared practical advice, featuring a mock interview exercise that portray actual recruitment scenarios. Organizers extended heartfelt thanks to all partners, volunteers, and participants and look forward to continued collaboration in future editions.

2 MJIT Cahaya Raya Alumni & Industry

Group photo of all attendees

The Cahaya Raya MJIT Alumni & Industry 2025 event, held on 12 April at UTM Residensi, marked a significant milestone with the official launch of the MJIT Alumni Malaysia Chapter. Over 200 alumni, industry leaders, and university stakeholders gathered to celebrate both the joyous Hari Raya season and the formation of this new chapter, reflecting MJIT's enduring impact on global education and industry. Alumni from over 30 countries, including engineers, academics, and entrepreneurs, joined the celebration, aims to strengthen lifelong bonds and foster industry-alumni collaboration.

3 Origami Engineering Workshop at MJIT

In 24-25 April, Assoc. Prof. ISHIDA Sachiko from Meiji University visited MJIT as part of a co-teaching initiative, where she conducted a lecture and workshop on origami engineering for third-year Mechanical Precision Engineering students as part of the Integrated Design Project course. Additionally, a Mathematical Origami workshop was held at JLCC, engaging 20 participants that shared interest in applying origami principles to engineering research.
