Presentation from SEAMEC Malaysia

Q&A sessions

MJIIT successfully hosted the JACTIM Industrial Talk 2025 on 11 November, bringing together industry experts from Azbil Malaysia, SEAMEC Malaysia, and Euglena Malaysia. The session offered valuable insights into automation, engineering career pathways, and sustainable biotechnology, providing students and staff with a clearer view of current industry trends and expectations. Students actively engaged with the speakers through interactive discussions, particularly by asking questions related to internship placements and job opportunities within the participating companies. This proactive participation highlighted strong student interest in industry exposure and career readiness. The event reflects MJIIT's continued commitment to strengthening industry-academia collaboration and enhancing student employability. Overall, the session served as a meaningful platform for knowledge exchange between academia and industry.

## 2 JICA Kyushu Business Study Tour

Exchange session with students

MJIIT hosted a visit by a delegation from Kyushu companies, organized by the JICA Kyushu Centre, on 12 November. The visit featured an exchange session with selected students proficient in the Japanese language, providing a valuable platform for cross-cultural and professional engagement. The programme also included a JICA project introduction presented by JICA Chief Officer, highlighting ongoing project activities and collaboration initiatives.

## 3 2nd Japanese Language Course Speech Contest for MJIIT Staff
