

1 MJIT Students Win Excellence Award at AEON 1% Club Japanese Speech Contest 2025

Award presentation

The winner with their certificate

MJIT proudly congratulates our students for their outstanding performance at the AEON 1% Club Japanese Speech Contest 2025, held on 3 December. Henry Lim Kim Yuan (4th Year, ESE) and Yong Shun Jie (4th Year, CPE) were awarded the Excellence Award, emerging as Top Three winners and earning the honour of representing Malaysia at the international level in Japan in February 2026, with full sponsorship by AEON 1% Club. Their achievements reflect the spirit of global engagement at MJIT.

2 Food Preservation: Freeze-Drying JICA-MJIT Training Programme

Participants learn troubleshooting

Drying process of the food

Participants preparing fruit samples

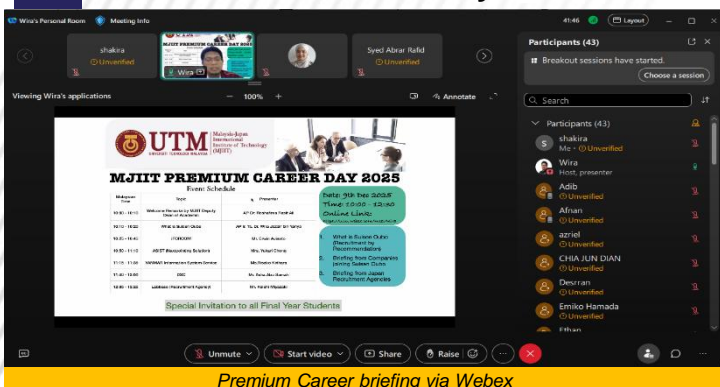

Product output of the machine

MJIT in collaboration with JICA conducted a four-day Vacuum Freeze-Drying Machine Training Programme from 4 to 7 December at the Food Security Laboratory. The programme aimed to enhance participants' understanding and operational competency in freeze-drying technology covering machine operation, process control, safety procedures, and basic maintenance. It provided theoretical and hands-on exposure to freeze-drying technology. This initiative supports the enhancement of laboratory capability and ongoing research in food preservation at MJIT.

3 MJIT Premium Career Day

Premium Career briefing via Webex

MJIT Students Career Development Unit recently hosted the Premium Career Day 2025 on 9 December aimed at enhancing final year students' career readiness. The event featured participation from Japanese industry partners and recruitment agency who shared insights on current job market trends, employment opportunities, and professional development strategies. Students were able to interact directly with recruiters, to explore internship and job prospects. Suisen Oubo was also briefed during the session.
